1300 901 401

Our Town Fencing unique Fenscreen® Panels are all manufactured using 100% BlueScope® COLORBOND® steel. This ensures that it is the best quality fencing material available, and being backed by BlueScope® steel's warranty of up to 10 years, you can be confident that all Fenscreen® products will look great for years to come.

Superior Strength Post

Our Town Fenscreen® panel post takes fence rigidity and strength to a whole new level. It's unique registered design introduces several ground breaking features that not only enhances stability, but also offers superior drainage of accumulated water in the bottom rail and actually assists with the installation (see details below).

Extra Wide Twin Rib Design

This design is specifically targeted to resist twisting, bending, and flaring, coupled with the 70mm width ensures a stronger, straighter finished product.

Drainage Gusset

This allows water to drain out the end of a bottom rail without obstruction more efficiently than conventional drainage holes.

Screw Locating Seam.

This assists with installation by guiding self drilling tek screws into the optimal position.

Fenscreen® Caps

Caps

Available in single or double. Unique design ensures caps are securely fastened for the life of the fence. Popular colours available.
